RECLAIMED WOOD FLOORING PE

Only Goodwin
ALWAYS GREEN

Why Only Goodwin PE...

American made in Florida... Goodwin Heart Pine Company, specialists in recovering original growth logs from Southern rivers, has developed precision-engineered wood flooring in a way that is healthy for you, our employees and the environment. Goodwin is the first American owned reclaimed wood company to manufacture engineered wood flooring in-house.

With a tight-grained, durable, stable, and rich glowing patina, Goodwin PE wood floors provide all the beauty and luxurious warmth for which our premium solid wood products are known, respected and cherished. They offer discerning homeowners and building design professionals new options to install premium reclaimed and 'green' flooring in environments where solid wood flooring is impractical.

Only Goodwin... Always Green.

Goodwin Heart Pine PE flooring has many 'green' features. It looks like solid... and it lasts like solid wood flooring.

- Long lasting... you can sand and refinish the thick wear layer as often as you can solid wood.
- Longer lengths (8') than other engineered reclaimed or 'green' wood floor
- 100% reclaimed or sustainable harvested wood on the wear layer
- Extreme milling tolerance and design to simplify installation, fit and long lasting beauty
- Low formaldehyde glue and backer, CARB, California Air Regulatory Board, compliant
- A warranted finish for beauty and maintenance (available unfinished)

“Your engineered hardwood flooring is very unique; it is of the best quality I have ever used! When you couple the beauty and stability of Goodwin river recovered and reclaimed wood with a user friendly product, one that can be finished in place for that “real wood” look.... you just can’t go wrong!”

—CHARLES RINEK CONSTRUCTION, PALM COAST, FLORIDA

The decision to install solid or engineered wood flooring is based primarily on the environment and application. Goodwin PE is precision designed, manufactured, and graded to our exacting high standards: its appearance is virtually indistinguishable from our premium solid wood flooring. Only Goodwin... PE is ideal for installations:

- On concrete slabs or over radiant heat
- For remodels, in townhouses or similar settings with pre-installed cabinetry and trim
- In environments where crowning or cupping may occur in solid flooring due to expected changes in temperature, humidity or moisture.

WHY ONLY GOODWIN...
PE MIGHT BE RIGHT FOR
YOU. IT LOOKS AND LASTS
LIKE SOLID WOOD FLOORS.

100% Reclaimed — 100% Usable — 100% Guaranteed.

Goodwin recently won the prestigious RECLAIMED WOOD FLOOR OF THE YEAR awarded by the National Wood Floor Association. You can see the winning floor at our showroom north of Daytona, or visit our mill showroom south of Gainesville, Florida. Like the treasured timber, a visit to the mill in rural north Florida is a step back in time. Goodwin takes pride in being different from other lumber mills. Only Goodwin has the passion for the wood, its craft and its customers demand it!

CHARACTERISTICS AND DIMENSIONS

- Flooring widths are 5-1/4" or 7" face and 5/8" thick. Wear layer equivalent to a solid wood floor.
- Luminous, vibrant color...copper to burgundy tones
- Arching grain patterns in the center with vertical grain pattern on either side
- 100 percent heart face
- At least 8 growth rings per inch
- Knots rare, no knots over 1-1/4" and no pitch pockets over 1/8" wide
- 1225 on the Janka scale, comparable in hardness to red oak (1290)

Antique River-Recovered® HEART PINE CLASSIC PE

Knots are infrequent in true antique Longleaf heart pine. This grade can have rare knots up to 1-1/4", although it has fewer knots than our Select solid grade.

Goodwin antique heart pine is guaranteed to be at least 200 to 500 years old, is 100% heartwood and has the highest level of hardness and durability.

WIDTHS: 5-1/4" or 7" face width

HEART CONTENT: 100% heart face

LENGTHS: 20" to 8 feet

GRADE: Plain sawn arching, cathedral grain pattern with rare knots

Only Goodwin ALWAYS GREEN 1-800-336-3118

Antique Reclaimed Heart Pine VINTAGE PE

Knots are infrequent in true antique heart pine. This grade can have a few larger knots up to 2-1/2", although no more frequent than in our Select solid grade. It features a blend of vertical and arching grain.

Goodwin antique heart pine is guaranteed to be at least 200 to 500 years old, mostly heartwood and has the highest level of hardness and durability.

WIDTHS: 5-1/4" or 7" face width

HEART CONTENT: 95-100% heart face

LENGTHS: 20" to 8 feet

GRADE: Plain sawn arching, cathedral grain pattern with some knots

CHARACTERISTICS AND DIMENSIONS

- Flooring widths are 5-1/4" or 7" face and 5/8" thick. Wear layer equivalent to a solid wood floor.

- 1225 on the Janka scale, comparable in hardness to red oak (1290)

Only Goodwin ALWAYS GREEN 1-800-336-3118

CHARACTERISTICS AND DIMENSIONS

- Flooring width is 3-1/4" face and 5/8" thick. Wear layer equivalent to a solid wood floor.
- Luminous, vibrant color...copper to burgundy tones
- 100 percent true vertical grain, no growth rings more than 45 degrees perpendicular to the face
- 100 percent heartwood
- At least 8 growth rings per inch
- No face knots over 1-1/4" and no pitch pockets over 1/8" wide
- 1225 on the Janka scale, comparable in hardness to red oak (1290)

Antique River-Recovered[®] VERTICAL PE *

Knots are infrequent in true antique longleaf heart pine. This grade can have rare knots up to 1-1/4", although it has fewer knots than our Vertical solid grade.

Goodwin antique heart pine is guaranteed to be at least 200 to 500 years old, which means it is 100% heartwood and has the highest level of hardness and durability.

**Known for its elegant pinstriped graining and pristine appearance.*

WIDTHS: 3-1/4" face width

HEART CONTENT: 100% heart face

LENGTHS: 20" to 8 feet

GRADE: Pinstriped grain pattern with occasional knots

Only Goodwin ALWAYS GREEN 1-800-336-3118

Wild Black Cherry P E

This is a wild southern variety, not as dark as Brazilian Cherry, and is a gorgeous complement to heart pine. Its rich color spectrum ranges from lustrous pinks to rich red brown.

WIDTHS: 5-1/4" face width

HEART CONTENT: 100% heart face

LENGTHS: 20" to 8 feet

GRADE: Plain sawn grain pattern with figure and some knots

CHARACTERISTICS AND DIMENSIONS

- Flooring width is 5-1/4" face and 5/8" thick. Wear layer equivalent to a solid wood floor.
- Deep pink to rich red brown tones
- Available in select grain, a blend of arching grain patterns and vertical pinstripes
- Some mineral streaking and considerable figured grain
- 100 percent heartwood available in best grade
- Pin knots rare in the best grade and while in the most popular grade has a few standard knots
- 990 on the Janka scale comparable to walnut (1010)
