

The Perfect Accents

The ancient Greeks were the first to accent their structures with mouldings meant solely to beautify surfaces. American craftsmen of the 19th century refined their wood-carved ornamentations in Victorian homes and palaces. Today we reproduce these antique patterns in heart pine, heart cypress and wild black cherry. Our high-tech moulder requires skilled operators, special steel and the best equipment to match classic patterns or custom orders. Call for pricing.

Our variety of fine wood mouldings include:

- Back band
- Base
- Bed Cove
- Brick
- Cap
- Casing
- Chair
- Cove
- Crown
- Fluting
- Panel

REEDED MouldING

$13/16'' \times 3 \ 1/2''$

Elegant Expressions

We are always happy to work with any member of the building team on custom patterns to guarantee your vision for beautiful surroundings.

- Our stairparts and mouldings are architecturally drawn and designed to classic proportions.
- We still craft the same solid wood, full dimension mouldings last offered in the 1925 edition of 8000 Series by the Southern Pine Inspection Bureau (reprints available).
- All mouldings and trim have “sand-free” millwork, free of charge.
- Milling knives are ground at \$50 per inch. Allow $\frac{7}{8}$ ” inch more than the finished pattern widths.

- The set-up charge for a custom mill run is \$50, with no minimum. Set-up fee is waived for runs over 1000 LF.
- Millwork is produced in quality clear heart pine, heart cypress and sustainably harvested hardwoods.

We also craft fine solid wood furniture in heart pine, heart cypress and wild black cherry.

Right: Goodwin has carved its unique niche in the industry by recovering rare treasures from rivers and milling them into high quality flooring, stairparts and millwork. Our wood is found in fine buildings and homes from Martha’s Vineyard to Catalina Island to Key West.
